

46th Annual Desert Regatta May 21st – 22nd 2022

Hosted by

The Columbia Basin Sailing Club
Lake Sacagawea, Snake River, Charbonneau
Park, WA

SAILING INSTRUCTIONS

CBSC RACING RULES

All races will be governed by the rules as defined in The Racing Rules of Sailing, (RRS), except as provided in these instructions and as prescribed by the One Design or Association Class rules. Supplementary sailing instructions may be issued for any particular race or races to augment those provided herein. If applicable, contestants will be notified of these changes.

REGISTRATION AND ENTRY

All skippers are required to register by completing an online or hardcopy registration form. When not racing in a One Design Class, the entrant will provide data appropriate for determining the rating used for scoring purposes. The Race Committee (RC) will consider these data in establishing a handicap rating. Where possible, the published values of ratings (e.g., *Table of North American Portsmouth Numbers and Wind Dependent Handicaps*) will be used. Wind Dependent Handicap will not be used.

OFFICIAL NOTICES

Notices and official signals will be posted at the location designated during the Skippers' Meeting. Notices will be posted no later than ½ hour prior to the initial race of the day.

SKIPPER'S MEETING

A Skippers' Meeting will be held prior to the initial race. Additional Skippers' Meetings may be called at the discretion of the Race Committee.

SAILING INSTRUCTIONS MODIFICATIONS

The Race Committee reserves the right to modify the Sailing Instructions and Course Sheet via Official Notices or via verbal instructions on the water.

STARTING TIMES

The starting times for each day will be listed in the Official Notices. Any modifications to the starting times for Sunday's races will be posted in an Official Notice no later than 19:00 on Saturday.

STARTING ORDER

The initial starting order will be provided at the Skippers' Meeting. The Race Committee reserves the right to modify the starting order via Official Notices or via verbal instructions on the water.

STARTING SIGNALS AND RECALLS

The starting signals will be as follows, replacing the system in RRS 26:

Indication	Flag Signal	Sound Signal	Time
Warning	Class Flag	1 sound	5 min. to start
Preparatory	Preparatory Flag	1 sound	4 min. to start
One Minute	Preparatory Flag Removed	1 sound	1 min. to start
Race Start	Class Flag Removed	1 sound	0 min.

The first race of the day will be a sequential start of the different classes in the order specified at the Skippers' Meeting (unless any fleet has two General Recalls). The starts will be in 5-minute intervals unless a *Postpone Signal* is raised.

To maintain a continuous clock sequence for starts, the starting signal will be the warning signal for the next fleet in the starting order if that fleet's class flag is displayed with the starting sound.

Any boat not starting or not racing shall keep clear of the starting area.

After the first race of the day, the starts will be rolling starts, determined on the water and indicated by the class card on the Race Committee boat. The class card will face the start line.

Code flag "X" and one sound signal will signify an Individual Recall of one or more craft. Attempts will be made to notify the individual yachts, but the responsibility for starting properly resides with the contestants.

Code Flag "First Repeater" and two sound signals will signify a General Recall. In a General Recall, the recalled class next starting time is five minutes after the aborted start. The recalled class flag will not drop. The "First Repeater" will be dropped and the Preparatory will be raised at four minutes to the start. After an initial General Recall, the Round-an-End Starting Rule is in effect. No Code flag "I" will be flown. In the event of two General Recalls, that class will shift to the last class to start.

STARTING AND FINISHING LINES

The starting and finishing lines are as described in the course map, and at the Skippers' Meeting. The starting line is always closed except during a fleet's start. Any boat not starting or racing shall keep clear of the starting area or be subject to protest. The finish line is always closed unless the craft is finishing. A boat starting later than 5 minutes after her starting signal will be scored DNS without a hearing.

COURSES

The courses that can be sailed are provided on the course sheet on page 5 or as announced.

SHORTEN COURSE MODIFICATIONS

The Race Committee may, for safety reasons or to enhance the contestants' race enjoyment, modify the course after the race has started in one of the following manners:

- Code flag "S" flown near a rounding mark will indicate that the contestants shall finish between the craft flying the flag and the adjacent mark (course mark rounding required).
- Code flag "S" plus a red flag flown near a rounding mark will indicate that the contestants shall proceed directly to the finish line after rounding that mark in the course rounding direction.

MARKS

The marks will be orange, red, blue, or yellow inflatable. The finishing mark will be a white foam buoy.

TIME LIMITS

Unless otherwise stipulated by the Race Committee, the time limit will be 2 hours from the race start. Races not scored because no contestant completes the prescribed course within the time limit will be abandoned as determined by the Race Committee. All craft not completing the prescribed course within 2 hours will be scored as DNF.

PROTESTS

Competitors are strongly encouraged to settle rules infractions on the water according to RRS 44.

Protests must be made in writing and in the format prescribed by the ISAF no later than 30 minutes after the Race Committee boat returns following the close of the final race of the day.

SCORING

Scoring will be in accordance with Appendix A, Low Point Scoring System.

NUMBER OF RACES

Eight races are scheduled. The number of races sailed may change depending on local conditions. No races will be started after 1400 on Sunday.

SAFETY

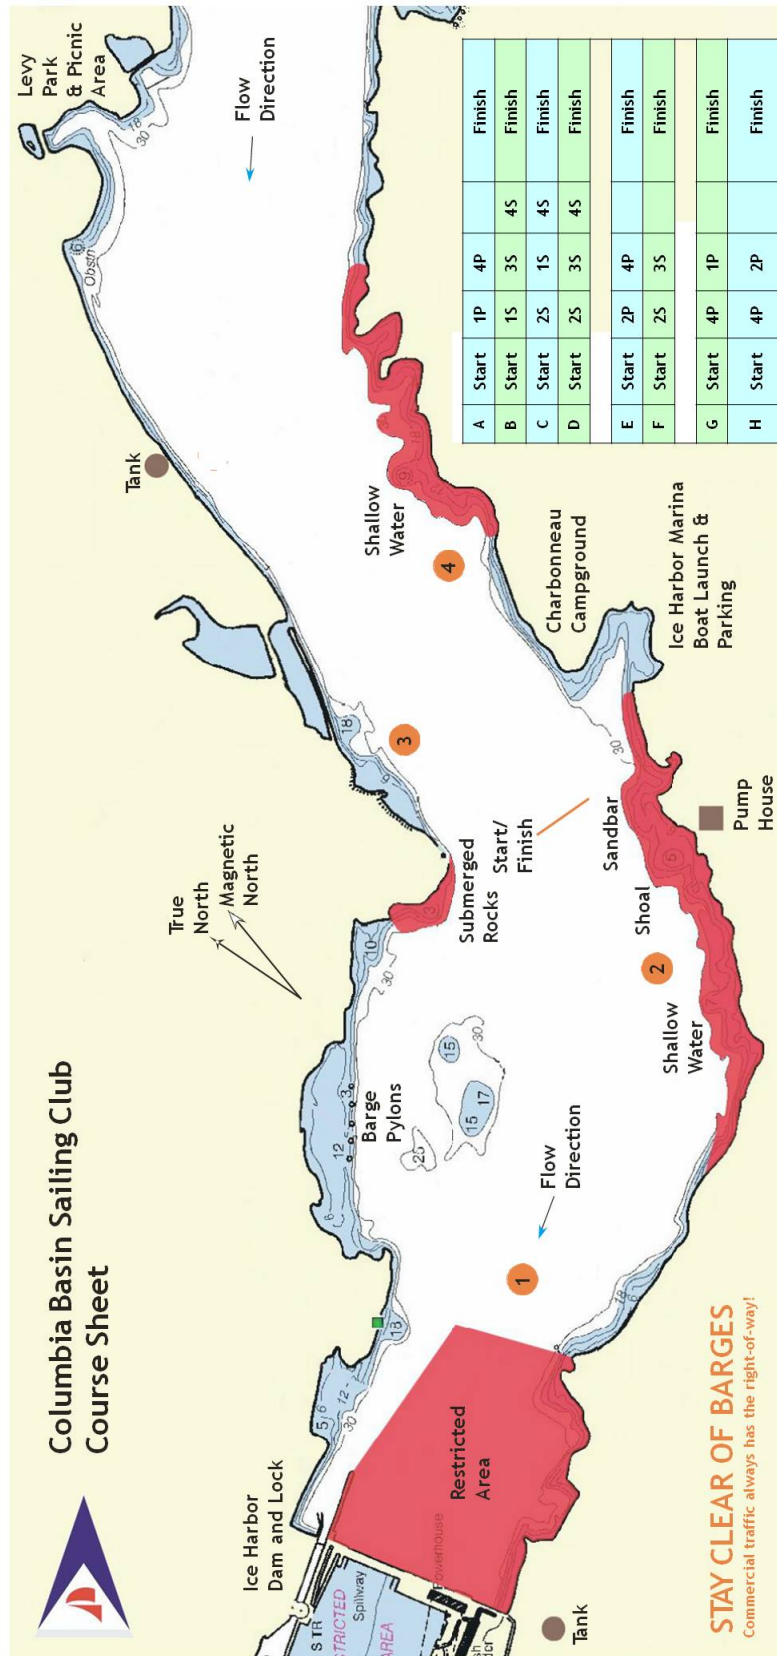

Each participant is responsible for his or her own safety. Each yacht must have the required safety equipment, according to her class rules or USCG. All boats are required to check-in with the RC boat prior to one minute before the warning signal of the first race each day. Please sail past the stern of the RC boat on a starboard tack in a single file and announce your sail number. The check in is not complete until someone on the RC boat acknowledges your sail number. Failure to complete the check-in will result in a 20% penalty in the first race of each day. This will be scored in accordance with rule 44.3(c). To assist the Race Committee in accounting for craft, any yacht not finishing a race shall notify the Race Committee that they have withdrawn from the race.

Commercial Vessels

Commercial vessels have the right of way at all times. **They cannot stop!** All participants must choose a safe course when commercial vessels are in the area. Any boat crossing the bow of a commercial vessel in an unsafe manner or interfering with commercial traffic in any way, will be disqualified and must retire immediately from that race.

Ice Harbor Dam

There is a restricted area just up river from the Ice Harbor Dam, marked by a series of red buoys. Any boat inside of these marks will be disqualified and must retire immediately from the race. Boats inside the restricted area may be subject to arrest.
